Mission

Promote cross-border open innovation to develop innovative medicines for patients in Asia

We have built solid network in Asia critical for open innovation in Asia

We launched two projects and have progressed them steadily under the COVID-19 outbreak

◆ DSANA

- ✓ A pilot project started between Taiwan and Japan
- ✓ More than 20 drug seeds were shared in 2021

◆ ANPDC

- ✓ We realized two internship programs for Thai researchers
- ✓ Screenings of natural products are underway by the researchers in Thailand
- ✓ We started on-line capacity building to cope with the COVID-19 outbreak

- ✓ Progress DSANA and ANPDC
- ✓ Update our strategy based on the future trend in drug discovery

Infectious Disease, Precision Medicine,
Aging Society, Digital Medicine, etc.

Thank you
